

## MARCH 2024

### Industrial Visit of BEE Department:

Students from the Bachelor of Electrical Engineering program of Bahria University visited "MR Enterprise and Co". The staff members at "MR Enterprise and Co" provided the students with a guided tour of solar power generation processes.

They introduced various inverters and batteries commonly used in solar panel setups, giving particular attention to Jinko's monocrystalline panels. Detailed explanations were provided on the electricity generation mechanism of these panels, focusing on their 24-kW setup.

This setup involved allocating 12 kW to each inverter, resulting in a combined production capacity of 24 kW. Additionally, the facility showcased a hybrid solar system, seamlessly integrating renewable energy sources with the grid and incorporating battery storage for enhanced efficiency and reliability.
