3. WORLD THALASSEMIA DAY

Thalassemia is an inherited blood disorder that causes a person's body to be deficient in a protein called hemoglobin. One of the common treatments for these patients is frequent blood transfusions – typically done every few weeks. In Pakistan, where thalassemia cases are rampant, a constant need for donated blood is at all-time high.

CSP CLUB BUKC has always recognized the importance of raising awareness on such noble issues and came up with an objective of educating the students by arranging Thalassemia youth convention and Blood screening activity on 16th May 11 – 1 pm and 23rd May 2023 at Al Beruni Auditorium from 11 pm till 4pm.

The following activities were conducted on this day:

- World Thalassemia Day Seminar
- Thalassemia Screening
- Blood Donation
- Counselling

The aim of the seminar was to increase awareness about thalassemia and its consequences among individuals.
