

ERC

ENVIRONMENTAL RESEARCH CENTER

Bahria University started a small environmental laboratory in 2007 in Karachi Campus to service of local textile industries on their wastewater treatment solutions. Soon after its recognition from federal Environmental protection agency in 2008 began a journey that would see a small Lab become one of the largest, most highly respected, commercial laboratory services in Pakistan. Following rapid growth and diversification in 2008 after winning a project from Higher Education Commission (HEC), ERC expanded its services across the country. In 2010 ERC achieved another milestone through winning a Thar coal exploration project was based for its expansion and capacity building in area of mining and mineral testing infrastructure facility. Whilst ERC has seen its services expanded by both geographic and end market diversification, the Center has never lost sight of its core values;

These core values are integral to everything ERC does and every decision we make. They are the cornerstone of what sets us apart from other technical services and are the foundation for the continuing growth and development of the Center.

OUR END MARKET

Over the past 12 year, our focus has broadened include dedicated services aligned to the needs of more than 55 Clients from the following market sectors.

- ✔ Textile Sector of Industries
- ✔ Pharmaceutical Sector of Industries
- ✔ Power Generation and Distributor Sector of Industries
- ✔ Civil Infrastructure and Construction Sector
- ✔ Oil & Gas Sector
- ✔ Mine & Mineral Sector
- ✔ Petrochemical
- ✔ Food Processing and Manufacturing Sector
- ✔ Environment, Health and Safety Sector

KEY CLIENTS

TAILOR MADE SERVICES

ERC is a leader in providing laboratory testing, certification and verification solutions. Assuring our community by providing high quality, innovative, professional testing services to help our clients make informed decisions. ERC operates its businesses along specialist service lines. This ensures we have the appropriate technical resources, reporting systems, and holistic service culture that is aligned to the specific needs of our clients.

LOCAL LEADER IN ENVIRONMENTAL ANALYSIS

ERC is a local leader in providing laboratory testing, certification and verification solutions. Assuring our community by providing high quality, innovative, professional testing services to help our clients make informed decisions. ERC offers a wide range of ground water, waste water, and drinking water testing and analysis laboratory services in support of site remediation, studies, and other projects.

KEY RESEARCHERS

Dr. Yasmin Nergis
